

Math Kangaroo at SDMC

MATH KANGAROO DAY

THURSDAY, MARCH 19, 2015

REGISTRATION FROM
SEPTEMBER 15 TO DECEMBER 15

Or WHEN CLASSES ARE FULL

- Math Kangaroo is a locally-administered international math competition.
- Math Kangaroo originates from Australia, which provides the cultural context for the name of the competition.
- Math Kangaroo in the United States is administered by Math Kangaroo USA, a non-profit entity.
- SDMC offers Math Kangaroo as a community service for students of the San Diego community. SDMC does not create the content for the exam, nor do we grade the exams or have any control over the policies, practices or rules involved. We do not receive any form of compensation for the service we provide.

Who participates?

- SDMC officiates Math Kangaroo in San Diego for several groups of students:
 - “Regular” SDMC students – you are a regular SDMC student if you are currently registered and possess a current, valid regular SDMC Student ID Code.
 - “At large” SDMC students – you are an at-large SDMC student if you are so registered for the current year and possess an at-large SDMC Student ID Code.
 - The general public – if you do not fall in one of the above categories, you are part of the general public.
- SDMC offers Math Kangaroo to ALL of the above categories, but in the priority order

Regular > At Large > General Public.

Priority

- Priority is assigned as follows:
 - Until November 15, Math Kangaroo registration is limited to Regular and At Large students.
 - From November 15 – December 15 (or earlier if forced to close), registration is open to the general public. (SDMC students may continue to register, but may miss out if we are forced to close registration early.)
 - Registration is closed to all students after December 15.
- If at any time capacity constraints force us to close registration, priority will be assigned according to
Regular > At Large > General Public.

Grade Levels

- The content of Math Kangaroo is stratified by grade level from the first grade through the twelfth.
- Your Math Kangaroo level will be determined according to the information you provide at registration.

Sign up as usual and send a check?

- No!
- *The usual SDMC event sign up method does not apply here.*
- Math Kangaroo has its own online registration tool, and takes payments through this online tool.
- SDMC is not involved at all in the processing of your registration and/or payments.
- You must go the Math Kangaroo website and follow their procedure.

Where and When?

- The specific location of SDMC's exam session(s) will be determined after some clarity develops on our registration totals at or near the end of December.
- The location will be posted on our SDMC Math Kangaroo event page in early January and will most likely be on the UCSD campus.
- Similarly, the exact time for each session will depend on our space reservation, but will most likely be in the early evening, typically around 6:30pm; this too will be posted to our event page in early January.

Competition Centers

First, please use the link below to register your students. Then, return to this page to pay the registration fee (\$20.0 per student). You will receive a confirmation email with the students' ID numbers to be used during the competition.

[New Student Registration](#)

Use this link if registering a new student that has never participated in the MathKangaroo competition.

[Update Student Registration](#)

Use this link if registering a student that took part of the one of the previous MathKangaroo competition, or want to make changes to already active registration. In both cases, a student identification number that was sent via email will be needed.

When your students are displayed in the "**My Students**" pane, you can select them to update personal data, unregister or remove, based on their current status.

Verify that you have selected SDMC as your test center. To transfer to a different center at a later date, just click "change location" and revise your selections.

SDMC does not receive most of this info. We rely on the adult email and telephone, so please be sure these are correct.

What does your fee pay for?

- In addition to the services provided in administering the competition, each student receives
 - a t-shirt,
 - a certificate of participation,
 - a gift
 - a competition booklet and
 - a pencil
 - medals or ribbons for high scorers

How do I get my score?

- A top bracket of students have their results openly posted on the Math Kangaroo website under the “results” sidebar tab.
- All students may log in to their user account to view their score, including some statistical information.
- Please see the Math Kangaroo website for related details.
